

Report Status: Final, Patient Name: Krishna Sah

| Patient Information | Specimen information | Physician information |
|---------------------|--|---|
| Name: Krishna Sah | Specimen Accession: V072792 | Name: Sean Parkin |
| DOB: 11/29/1995 | Specimen Source: Nasal Swab | Address: 13690 E 14th Street, Suite 100, San Leandro, CA, United States, 94578 |
| Gender: Male | Collection Date: 03/06/2021 10:33 AM PST | Tel: 510-984-2489 |
| Tel: (530) 574-9007 | Received Date: 03/06/2021 06:47 PM PST | |
| I.D. Number: - | Report Date: 03/07/2021 07:00 PM PST | |

| Result | Test Name |
|------------------------------|--|
| Negative/Not Detected | SARS-CoV-2 RNA Test for Covid-19 (RT-PCR/NAAT) |

Interpretation

A 'Negative / Not Detected' result with the SARS-CoV-2 RNA Real time-PCR (RT-PCR) test, a type of nucleic acid amplification tests (NAAT) for COVID-19, indicates that SARS-CoV-2 RNA was not detected in this individual at the time the specimen was taken. Laboratory test results should always be considered in the context of clinical observations and epidemiological data in making a final diagnosis and patient management decisions. Patient management decisions should be made with a healthcare provider and follow current CDC guidelines. A negative result should not be used solely to rule out infection with SARS-CoV-2. If COVID-19 is still suspected based on exposure history together with other clinical findings, re-testing should be considered by healthcare providers in consultation with public health authorities.

Disclaimer

The SARS-CoV-2 RNA RT-PCR test for COVID-19 test is authorized under EUA approved by the U.S. Food and Drug Administration (FDA) under the Clinical Laboratory Improvement Amendments of 1988 (CLIA), 42 U.S.C. §263a, that meet requirements to perform moderate or high complexity tests. Predicine is certified under CLIA and California State Public Health Department as qualified to perform high complexity clinical testing. Predicine follows the standard testing and reporting guidelines according to their appropriate public health authorities.

If you have any questions about your test result(s), please contact your ordering physician or healthcare provider.
